DISCOVERY OF THE HALE HARRISON BRILLIANT

This sensational new peach was discovered by Mr. Oscar F. Jones, near Crozet, Virginia in the famous mountainous Albemarle County section. He was manager for more than 30 years for the A. C. Bruce orchards, who planted many thousands of Harrison grown peach trees, starting in 1902. A life long horticulturist, he is a pioneer in one of the largest peach growing districts of the United States.

A Sure Cropper for the South and Everywhere having the lowest chilling requirements being 750 hours for both fruit buds and leaf buds.

WHAT PROMINENT GROWERS SAY

Mr. E. D. McGuire—"After investigating I found that this amazing peach is just what I have been seeking for several years to grow instead of Elberta at Carbondale, Illinois." Mr. McGuire telephoned his order to express 700 Hale Harrison brilliant peach trees 5 to 6 feet.

Mr. C. Purcell McCue—"Personally, I feel this peach will replace ELBERTA in this section."

Mr. C. E. Starkweather—"It bears larger, better colored peaches even with a heavier crop than the Elbertas do."

Mr. Lee T. Carpenter—"If it proves out in tests as good as it is in its original habitat I consider it to be the greatest find since Elberta in the 1870's."

Mr. Charles H. Martin—"The parent tree of this peach is the largest and the most prolific I ever saw and when it is loaded with those large, uniform fruit, one hundred per cent colored it is a sight to be remembered."

Mr. Edward D. Daugherty—"I know something of the HALE HARRISON BRILLIANT and consider it a very unusual variety which will soon replace Elberta if properly distributed and advertised."

Mr. H. P. Rhodes—"The 500 Hale Harrison brilliant peach trees I got from you and planted during November of 1949, that 496 are growing and have made a tremendous growth with dark green, healthy leaves and sturdy limbs. I was over to Crozet this summer and got three bushels of this amazing peach from Mr. Oscar Jones, they were off of the parent 116 years old tree which had probably twenty bushels which he sold off the tree for $4.50 per bushel. They were the most perfect example of a very large, delicious firm peach I have ever seen. Will eventually replace Elberta. I want to plant another block, as I believe and all of the fruit men of Winchester, Virginia agree with me, that this peach is the answer to a fruit grower's prayer."

Sensational! New! Colossal!

Yellow freestone ripening during midseason at about the same time as Elberta. The fruit is nearly fuzzless and has a brilliant red almost completely covering a golden yellow ground color even when growing in shade in the interior of the tree. Fruit throughout the tree is uniformly large even when unpruned or unthinned. Tree is large, vigorous and rapid grower. Self pollinating, it bears tremendous crops year after year. Very hardy in bud and blossom and highly resistant to brown rot. Keeping qualities are excellent.

FOR HOME OR COMMERCIAL ORCHARD

Whether you are going to plant one tree for home fresh eating, canning or freezing or one thousand trees for a commercial orchard, we enthusiastically recommend Hale Harrison Brilliant as the best peach to plant. It will give you more pleasure to eat or more profit in growing than any other peach known today.

WILL REPLACE ELBERTA

For many decades Elberta has been the standard peach of the world by which all peaches have been judged, tests and observations by leading peach authorities confirm our belief that the new sensational Hale Harrison Brilliant surpasses the Elberta in every way.

OUTSELLS AND OUTBEARS

Hale Harrison Brilliant outclasses them all. It is really the one peach that has everything. Its beautiful attractive appearance, huge size, superior delicious flavor makes it have extraordinary favorable eye appeal, resulting in higher prices when combined with its BRILLIANT crops. "Original tree has produced over twenty bushels a year." make it the outstanding moneymaker.

WIDELY ADAPTED

Hale Harrison Brilliant has been planted in thirty-four states. Reports from these plantings prove it is equally as adaptable to the far south as it is in central and western areas and it even produces highly satisfactory in Canada and other northern peach sections.

LONG PICKING SEASON

One of the finest features of Hale Harrison Brilliant is its early coloring, the golden yellow ground color appears weeks before it begins to ripen, this is the one peach that has a high sugar content even when it is hard. Fruit growers have been amazed at its ready to eat coloring and general smooth skin appearance several days before it is ready to pick and ship, this means a long picking season. Records show that it surpasses in keeping qualities any other peach on long distance shipments.

HARRISONS AMAZING GUARANTEE

Several years of testing in co-operation with leading fruit authorities convince us as to the outstanding merits of Hale Harrison Brilliant that we can make the following guarantee.

"Each and every Hale Harrison Brilliant is a true reproduction of the original strain, it will produce more satisfaction to you than any other peach variety that ripens during its season, on proper proof of failure to do this we will furnish you without charge an equal number of peach trees of any other variety that you desire."

Back of this guarantee are the resources of Harrison Brothers Nurseries with an enviable record of sixty-eight years in the Nursery and Orchard business.

GENUINE HALE HARRISON BRILLIANT PEACH TREES GROWN AND SOLD EXCLUSIVELY BY HARRISON BROTHERS NURSERIES, BERLIN, MARYLAND.
Dear Friends:

For sixty-seven years the business of the Harrisons' has been to grow Fruit Trees, Roses and Ornamental Nursery Stock, also commercial fresh fruit growers—this business has grown and developed only though a thorough understanding of the science of horticulture in all its phases with practical use.

Now when you buy nursery stock—remember all of it is a living plant—the pedigree, or parents, play an important part in the future results of the very tree you buy—the "hidden value" is the inborn inheritance that becomes the final quality, type, strain, size, color and productiveness so necessary in the future performance—and right here is the very feature which makes HARRISON grown nursery products have superior merits.

HARRISON'S Fruit Trees and Small Fruits are true to name, earlier to bear, and yield larger crops because they are scientifically propagated from SUPER SELECTED STRAINS. Likewise, the parent plants used for propagating our Ornaments are of the finest types for their respective varieties.

In closing, may we personally take this opportunity of thanking our many, many customers for their continued confidence, for which we are sincerely grateful.

Sincerely yours,

HARRISON BROTHERS NURSERIES

G. Hale Harrison, Gen. Mgr.

TRUE TO NAME

The World's Foremost Fruit Variety Identification Specialists Have Examined Harrison-Grown Trees and Pronounced Them True to Name.

Shinn's Delicious

Trade Marked
Trees Grown and Sold Only By Harrison Bros. Nurseries

A true mutation, being very early ripening budspout strain of Burbank July Elberta, U. S. Plant Patent #15, discovered by Mr. C. T. Shinn and Mr. L. S. Smith in their orchard near Russellville, Arkansas. Identical in large size, beautiful red color with handsome golden yellow background color, yellow flesh, freestone and superior flavor as its parent, however, its most appealing characteristic is that it ripens three weeks sooner, between Red Bird and Red Haven, making it about five weeks earlier ripening than Elberta. Every peach grower should make a planting of Shinn's Delicious this year. We know you will want more of them when you see the fruit, Shinn's Delicious (Trade Marked) is an exclusive Harrison variety and only genuine Shinn's Delicious trees can be obtained from Harrison Brothers Nurseries, Berlin, Maryland. Many growers say it is better than Starking Delicious peach U. S. plant patent #506.

BURBANK JULY ELBERTA U.S. PLANT PATENT NO. 15

The Outstanding Medium Early Commercial Peach

Here is the peach that has caused a sensation wherever fruited. Growers in many sections say it is their best medium early, yellow, freestone peach for shipping, local markets and home use. Beautiful golden yellow, almost completely overspread with brilliant red. Ripens about the same time as Hale Haven, but on account of its vivid red color and yellow background with no green color, it can be picked for commercial shipments about four days sooner. Excellent in flavor, even superior to Hale Haven for fresh eating, freezing and canning. Hardy, smooth-skinned, this variety, a sensational money maker. July Elberta is known by different names, such as Burnett Elberta, Burbank July Elberta. We offer an outstanding strain selected from bearing trees. Season of ripening about two weeks sooner than Elberta (Original strain).

TRIPLE CERTIFICATION

By U.S. Government, State of Maryland, in addition to other horticultural inspectors. Your order must be sent Harrison Grown, healthy, clean nursery stock. Free from diseases and insect pests. Certificate of inspection accompanies each shipment.

**Biggest Peach Tree Values in America**

**HERE’S A "LOAD" OF REASONS WHY HARRISONS' PEACH TREES ARE BETTER**

A—Our organization has over 65 years' experience.
B—Every step in growing under the personal supervision of the Harrison Brothers.
C—One hundred and fifty thousand trees in Harrison Brothers orchards from which our propagating trees are selected.
D—Use of modern methods for planting, cultivating and digging.
E—Over 4,000 acres of various types of soil.
F—Ideal soil and climatic conditions.
G—Co-operation with leading horticulturists and experimental stations all over the world.

**Very Early Varieties**

DIXIRED. Very early, yellow, cling, medium size, round, bright attractive red blush; good flavor, prolific bearer. Ripens two weeks earlier than Golden Jubilee or about three days later than Red Bird. A new variety originated and introduced by the U. S. Department of Agriculture. Its most outstanding commercial feature is that it is a good shipper and has been planted extensively in Georgia to meet the demands for the very early Peach market.

DIXIGEM. Early, yellow, semi-freestone, red blush, medium size, good quality. Ripens a few days sooner than Golden Jubilee. A new variety originated and introduced by the U. S. Department of Agriculture. Extensively planted in Georgia.

FAIRHAVEN. Early, yellow, freestone, medium large, nearly round, mostly bright golden in color with an attractive bright red cheek. Skin is smooth and very tough. Fruit very firm and ships exceptionally well. Ripens just after Golden Jubilee.

JERSEYLAND (N. J. 135) — Ripens a week sooner than Golden Jubilee, large, firm, attractive yellow flesh, freestone. Tree is hardy, sets buds freely. Introduced by New Jersey Experiment Station.

**RED BIRD—Earliest Large Peach, Commanding High Prices**

**EARLIEST OF ALL PEACHES**

Most Popular Extra Early Market Peach

Bright glancing color—"red as fire"—on a background of creamy white.

Handsome. Large—as large as Elberta. Ripens about 45 days before Elberta. Clingstone. Good to eat and fine for pies, cobblers and Peach pickles. Quality good, especially when left on the tree until they get fully ripe.

"Break all young-bearing records." "Break all bearing records." "One crop paid for my whole orchard." "Most profitable early Peach." "Sell fast as can ship." "Better shipper than Elberta."

**JUNE ELBERTA.** A big, handsome red and gold Peach, highly colored, excellent quality and a dandy home Peach, being a new variety. One of the earliest of the good yellow-fleshed Peaches. This semi-freestone variety quickly returns cash dividends before later varieties reach the market.

**HARRISONS’ HARDY PEACH TREES**

We absolutely guarantee Harrison-grown Peach trees, variety for variety, to be as hardy or harder than trees grown in any locality north of us.

HARRISON—A Name in Trees You Can Trust
The Sensational REDHAVEN

Tops All Extra Early Peaches, Earliest Yellow Freestone Peach

THE NEW EARLY RIPENING YELLOW PEACH THAT RIPENS ABOUT 10 DAYS BEFORE GOLDEN JUBILEE

The most promising early ripening yellow freestone Peach ever introduced. A cross between Hale-Haven and Kalhaven made at the South Haven, Michigan, Experimental Station. Brilliant red color with creamy yellow background, smooth skin, almost fuzzless. Ripens before it ripens. Bears heavy crops and should be thinned for best results. Every grower should try REDHAVEN. We have a good supply of genuine Redhaven trees this season. The demand for this variety is heavy, so order early.

HALE-HAVEN

Early midseason. Ripens just after Golden Jubilee has been harvested and about 14 days ahead of Elberta. Yellow freestone, large, high red color, firm, fine flavored. It takes on red color early and the peaches show good red color several days before ripening, which gives it a distinct advantage for marketing. When allowed to ripen fully upon the trees its flavor is undoubtedly the best of any yellow Peach. Tree is an extra strong grower and produces a bumper crop of fruit each season. Very hardy in fruit bud. One of its parents is J. H. Hale, from which it inherits its large size and fine color. The other parent is South Haven from which it attains hardiness, large crops yearly and strong growth. It is the best variety ripening just after Golden Jubilee and should be planted in every orchard. Excellent for fresh eating and quick-freezing.

A LEADER and What a PEACH!

GOLDEN JUBILEE

Early. The supreme early yellow Peach. Peach orchardists for a century have been looking for an early Peach of high quality, fine flavor, yellow flesh, attractive color and firm texture, and eventually they have found it in the marvelous Golden Jubilee. Fruit bright deep yellow, medium to large size, oblong shape. Good size, fine appearance and excellent quality with delicious flavor. Ideal for roadside stands and home orchards, also commercial orchards for nearby city shipments. It ripens about ten days earlier than Hale-Haven.

HERE IS THE HIGHLY FLAVORED EARLY WHITE FREESTONE PEACH YOU HAVE BEEN LOOKING FOR

CUMBERLAND

An outstanding favorite early white Peach. Is a comparatively new, white, nearly freestone variety that was developed by the New Jersey Experimental Station. The fruit resembles Belle of Georgia, both in appearance and quality, although it ripens about the same time or a little before Golden Jubilee.
HARRISON'S PEACHES
ARE A COLLECTION OF
THE WORLD'S BEST

TRIOGEM (N. J. 70)
Developed by the Master Plant Breeders of New Jersey
MEDIUM TO LARGE, FIRM, ATTRACTIVE

Ripens early, medium to large, oval, firm; high quality, high red color over entire Peach, yellow flesh; freestone, smooth; nearly fuzzless like J. H. Hale, one of its parents; colors several days in advance of its ripening, being 2 days later than Golden Jubilee, or 3 weeks earlier than Elberta. This, combined with its very slow rate of ripening, make it an ideal Peach for commercial growers. Hangs well to the tree after the Peaches become firm ripe. When picked hard to firm it is a good long distance shipper. This is the best commercial Peach ripening at this period, and is being planted now by some growers in preference to Golden Jubilee. Considered as the best new variety of Peach so far originated and introduced by the New Jersey plant breeders.

A REAL PROFIT MAKER
TRIOGEM has been fruiting commercially in New Jersey and Maryland for several years. During this time it has topped all varieties in price on the New York and Philadelphia markets which ripen at the same time during the summer. Several large commercial orchards have been planted with Triogem and its popularity is increasing each year.

CHAMPION. A Good Home Peach. White, freestone, very large; creamy white with red cheek, sweet, juicy, very high flavor. Champion has lost its past commercial importance because it will not carry satisfactorily under refrigeration, but as a home garden or a roadside Peach, it is one of the best. Tree is hardy, large grower and productive. Ripens ten days earlier than Elberta.

RANGER. A fine yellow freestone, ripening at same time or just after Golden Jubilee. Beautiful peach. Very hardy, new variety, bears big crops when other varieties under same weather conditions have light yields. Introduced by U. S. Dept. of Agriculture.

RARITAN ROSE. Extremely hardy, white flesh, nearly freestone, large size, high red color with good flavor. Ripens with Golden Jubilee. Excellent peach for home and local market.

SUNHIGH. (N. J. 82.) A large, red, bright, smooth Peach which colors well all over before it ripens, softens slowly, making it a good commercial Peach. Flesh inclines to adhere to the pit when hard ripe. The variety seems to do best in hilly sections and requires thorough summer spraying. The fruit is large, roundish; thick-skinned, very uniform in size. Color deep yellow with red cheek. Stone is free. Ripens approximately 15 days before Elberta, at a time to bring high market prices.

HILEY. White. Early midseason. Bears huge crop of fancy Peaches. Freestone, medium size, highly red colored and is a very handsome Peach of exceptionally good flavor. Tree is strong grower, very healthy and an extra heavy bearer. You can depend on Hiley to bear heavy crops year after year. The marvellous color and good flavor have made it popular on the markets. Hiley resembles Belle of Georgia but ripens about 14 days earlier.

SOUTHLAND. Early midseason, yellow, freestone, medium to large, round, attractive red blush with mild, good flavor. Originated by the U. S. Department of Agriculture, being an ideal peach for the extreme Southern peach Belt. Vigorous tree, productive and fruit ripens at the same time as Hiley. Promising commercial peach.

SUMMERCREST. (N. J. 94.) Midseason, yellow, freestone, large with red blush and sweet flavor. Trees exceptionally vigorous, fruit ripens the same time as Belle of Georgia, which is a few days earlier than Elberta. Popular in New Jersey where it is known.

GOLDEN EAST. (N. J. 87.) Early midseason. Very large, high red color, yellow, freestone. Very good flavor. Ripens 15 days earlier than Elberta. Good roadside market and commercial Peach.

Original Strain

**J. H. HALE**

HARLAN BROTHERS
NURSERIES
BERLIN, MARYLAND

J. H. HALE—Giant Size. Enticing Flavor

**Belle of Georgia**

The Queen of Flavors

THE BEST WHITE MID-SEASON VARIETY

Ripens midseason. Color creamy white with red cheek. Flesh white, red near pit. Size large, freestone. Belle of Georgia, for some time, has been recognized as the best all-around white Peach on the market. It is easily the best shipping white Peach of its season, ranking almost with Elberta in this respect. Because of its many desirable qualities, it has become standard in the large commercial orchards, and you can find few orchardists of any importance who do not have a block of Belle in their orchards. These men know from experience just what varieties pay best and endorse it highly.

**SULLIVAN EARLY ELBERTA**

An Early Ripening Red Bud Sport of Elberta

MIDSEASON YELLOW—FREESTONE

Here is the early ripening strain of original Elberta growers have been wanting. Discovered by Mr. Sullivan in a Georgia orchard. Identical to Genuine Elberta in every characteristic except it ripens about seven days earlier. Yellow freestone, firm, juicy, rich, good flavored. Equally attractive as Elberta and is a good keeper. Good for either home or commercial planting.

10 OUTSTANDING REASONS FOR PLANTING SULLIVAN EARLY ELBERTA

1—Size: Large to Extra Large.
2—Yellow Freestone.
3—Rich, Sweet Flavor.
4—Brilliant Red Colored with Golden Yellow Background. Excellent Long Distance Shipper.
5—Tree Vigorous Grower.
6—Bears Large Crops Annually.
7—Color a Week Earlier Than Elberta.
8—Ripens Slowly After Being Picked.
9—Brings Highest Market Prices.
10—Completely Tested.
It's the Greatest Money Maker

(Original Strain) ELBERTA

Internationally Famous—The Standard by Which All Other Peaches are Judged

Midseason. Yellow, freestone. Fruit is large to extra large; golden yellow with brilliant shades of red; firm, juicy, rich, sweet and good flavor. Elberta has the greatest international reputation of any Peach. It has been the standard for all other Peaches almost since the date of its introduction. The coloring of Elberta is practically perfect. The rich, yellow skin is almost entirely covered with dark red blush upon the sunny side. The attractive appearance and uniform large size serve to sell it almost on sight. We offer original strain trees which is the best strain obtainable.

Save Disappointment—Plant Only Harrison ORIGINAL STRAIN Elberta

Today, there are more than seven distinct types and strains of Elberta, bearing fruit in the orchards of this country. To compare the various sizes, shapes, texture and red coloring of these Elberta with those grown "an original strain trees" gives such a clear reason why they sold this year at a premium of $1.00 to $5.00 per barrel on the New York and other leading fruit markets.

They Cost No More

Why plant degenerated strains of Elberta when you can plant Harrisons heavy yielding original strain trees. They can be purchased at the lowest price that high quality trees can be produced for. It is true trees, size by size, can be produced cheaper by buddling them from non-fruiting trees in the nursery row, but this method causes degeneration. Trees grown in this manner will be lighter croppers and require a longer time in coming into bearing.

FOR NEW LOWER PEACH TREE PRICES SEE PAGE 5

2. Quality
3. Color

A Profitable Commercial Variety Slightly Later Than Elberta

Brackett is a comparatively new commercial Peach in some sections but wherever tried it has given uniformly good results. During the past thirty years we have planted many thousands of this variety in our own orchards and they have given good results.

The fruit is rich yellow, with dark carmine cheek. The size runs fully as large or larger than Elberta. Flesh is deep yellow, extremely juicy and is absolutely freestone. Fruit is much better flavored than Elberta. Good shipper.

Popular On The Markets

Brackett commands unusually high prices on the market and often out sells Elberta twenty-five to fifty cents per bushel. We know the grower who needs a Peach ripening slightly later than Elberta will make no mistake in planting Brackett.

Plant Harrisons' Original Strain

HARRISONS' were the first to popularize this great variety and distribute it throughout the Peach-growing sections. We offer trees that are propagated direct from the original strain and they are sure to produce results.
Genuine

SHIPPERS LATE RED

Midseason-Late. Large, round, yellow, freestone, very attractive with high red color. It is a Hale type of Peach, having good quality and brings high prices on the fruit markets. Ripens three days later than Elberta. A good commercial Peach as it is a prolific bearer of large size, highly red-colored Peaches and is a favorite wherever planted. Harrisons are growing the original strain of Shippers Late Red which is far superior to other varieties and strains of this variety. Should be planted in every commercial orchard, as well as home orchards. Dependable trees which are absolutely "true to name."

Harrisons' Maryland Grown Peach Trees are the Finest Quality in the World

Late Ripening Varieties

LATE ELBERTA. (Gemmcr's Late Elberta.) Late, yellow, freestone, large, high red color, fine quality, good shipper. Is a typical Elberta in fruit and tree characteristics, but ripens 4 to 5 days later than Elberta of the original strain.

LIZZIE. Late, distinct type of Elberta, very large, freestone, yellow, which ripens 14 to 16 days later than Elberta, having same prominent coloring characteristics as its parent.

New! Exclusive! Sensational!

YELLOW FREESTONE

The World's Greatest Peach

Rio Oso Gem which has caused the greatest amount of favorable reports of any Peach introduced in recent years is the one. The Rio Oso Gem is the most promising of all the Orientals and is the one to buy this year. The shape of the Gem is all that anyone can expect from one or three Peaches. Will run a pound or more in weight and in man, instances, have been reported that the crop would average three-quarters pound per Peach. The flaming, beautiful bright red color in the check, along with an attractive orange-colored background, has earned it an unusual reputation as being the prettiest Peach grown.

BEST FLAVORED COMMERCIAL PEACH

The unexcelled flavor is better than that of J. H. Mote and Elberta. The entire fruit makes a very popular Peach for fresh eating. The rich flavor is retained when canned or preserved. New recognized as the leading canning Peach in the United States. Rio Oso Gem is the only Peach which can be preserved by quick freezing and still retain its firm texture, with an uniform color, rich, golden yellow flesh and the same flavor as when picked. We have quick frozen Rio Oso-Gem Peaches, which were picked and processed September 1, 1944, which are still holding up in excellent condition.

RECORD BREAKER FOR LONG DISTANCE SHIPMENTS

The Rio Oso Gem is the best of all Peaches for long distance shipments and the fruit will stand up longer after being picked than any other variety of Peach in existence. This stupendous variety oozes itself exceedingly well for shipments in refrigerated cars are cooled, under standard refrigeration for continental hauls. This is the greatest Peach for shipments on trucks under ventilation, as its hard, firm texture insures arrival in excellent condition.

Rio Oso Gem

Ideal for Home Orchards

Ripens 10 days later than Elberta. Rio-Oso-Gem is a very prolific bearer and dependable annual creper.

Rio Oso Gem is No Experiment

Colonel and Mrs. Frank Sleeter, Round Hill, Virginia, wrote, "We have the land ready for the 100 Rio-Oso-Gem peach trees, 5 to 6 feet April, 1950 planting. It is a wonderful peach and we have had marvelous results. It is worth at $6.00 per bushel, in spite of the low market price prevailing during the summer of 1949."

Destined to be America's Leading Commercial Peach

Sample of Rio-Oso-Gem Grown in Harrisons' Orchards at Berlin, Maryland. Sold only by Harrisons' Nurseries in numerous states.

Read what fellow growers say

We have received several hundred complimentary letters highly praising the Rio-Oso-Gem Peach, U. S. Patent No. 84, from all over the United States, some of these remarks are from people such as President R. S. Graham—Alderson Company, Forest City, Arkansas: "We have about 1,000 of Harrisons' Rio-Oso-Gem Peach trees from which we have been harvesting the largest and prettiest Peaches I ever saw. We sold our Elberta Peaches, U. S. No. 1 grade at $2.25 per bushel and we had no trouble in picking the Rio-Oso-Gem Peaches 24 inches and up which we sold at $4.00 per bushel, f. o. b. Forest City, Arkansas."

Mr. H. J. Frank Smith, Prog. Hillcrest Orchard, Dover, Arkansas, writes: "This year's crop convinces me that the Rio-Oso-Gem, U. S. Patent No. 84, is the finest Peach and has certainly proven such with me. It has fine texture qualities as a canner and people go wild about it. It always brings the highest prices for me."

Mr. Charles Heilig, Sewell, New Jersey, Gloucester County, said that the most handsome and the best Peach of the forty years' experience that he has had was his first crop of Rio-Oso-Gem on 400 trees, three years old, from which he picked during early September 324 bushels and which he sold at an average price of $5.00 per bushel at his farm, grossing him more than $1,600.00 from this very young orchard. He bought 620 Rio-Oso-Gem trees for planting November, and said his good plants would be Rio-Oso-Gem.

America's Most Famous Peach

Mr. E. H. Connor, fruit grower and broker of Stephen City, Virginia, in the famous Frederick County, fruit section, was exceptionally well pleased with his first crop of Rio-Oso-Gem Peaches on his three-year-old trees which he picked during early September, From his 400 trees, three years old, he picked a 300-bushel crop for which he was offered $3.75 per bushel, f. o. b. Stephen City, Virginia, for the entire crop but he refused the sale so that he could sell the Peaches in smaller quantities at high prices to his customers throughout the Shenandoah Valley of Virginia and nearby cities. He planted 100 more trees two years ago which had a few Peaches on them this summer. Connor states he has 5,000 Rio-Oso-Gem Peaches on 200 trees, U. S. Patent No. 84, planted in his orchard instead of 500.

Rio-Oso-Gem is a Must for every grower

There are still big cash profits in Peaches, provided you grow the right varieties and in the near future you will see where the Rio-Oso-Gem, U. S. Patent No. 84, will be getting more prominence each year. It is predicted that within a decade or so, it will be the most extensively planted commercial Peach in America.

Prolific Bearer—Rio Oso Gem Peach

Harrisons Brothers, Berlin, Maryland

RIO-OSE GEM

[10]
Fancy Bartletts Bring Highest Prices
Bartlett Pears always sell on the markets even when other sorts are not in great demand. The fruit is so handsome and appealing that it pays to pack it in fancy containers. Bushels or bushel boxes are best adapted. The fruit ought to be sorted and graded, wrapped in tissue paper, and arranged in the container practically the same way that you pack Apples. Pears are sometimes packed in Peach carriers, and sell to good advantage. Plain fruit can be sold without wrapping, in small baskets or boxes. One or two Bartlett Pear trees in the city yard will furnish a considerable amount of fruit; a half dozen will supply the family with fresh fruit and a surplus for preserving.

KIEFFER
SURE CROPPER—EASY TO GROW
Of all the Pears, Kieffer is the most easily grown. Trees are vigorous, exceptionally hardy and thrive on varied soils in any climate. Kieffer and Koonce are the only Pears that can be successfully grown in such southern states as Alabama, Mississippi, Louisiana, etc., and yet it is the leading commercial Pear in Canada. Kieffer is blight-resistant, and can be successfully planted in large orchards.
This fruit is large to very large size; skin yellow, with light vermilion cheek; flesh yellowish white, very juicy. Noted for being a long-time keeper. Most popular canning Pear.

BEURRE BOSC. Large size, fine quality, brings highest market price. Late.
BEURRE D ANJOU. Large, green in color, somewhat yellow when ripe, buttery, melting, rich, vinous, good flavor. Tree vigorous, hardy, prolific bearer. Very late.
CLAPPS FAVORITE. Large size, hardy and very productive. Thrives where other varieties fail. Very early.
DOUGLAS. Very resistant to blight. A winter Pear of wonderful quality, golden yellow with a faint blush on the cheek. Bears early.
DUCHESS. Very large, dull greenish yellow. Tree somewhat dwarf but a dependable bearer. Late.
GORHAM. Flavor is sweet and vinous with a very marked and pleasing aroma. Flesh is white, tender, buttery and juicy. Valuable for canning in the winter.
KOONCE. One of the earliest Pears, free from blight, does not rot at the core like many early Pears. Fruit is yellow, medium to large, delightful flavor. Very productive. Extra good for southern states.
SECKEL. A beautiful and delicious little Pear. One of the richest and highest flavored Pears grown. Tree dwarf, bears prolific crops. Late.
WORSEN SECKEL. A seeding of Seckel. Superior in size and color. Mid-season.

WILLIAM’S EARLY RED

The Big Red Home or Market Apple

Just at the time when people are hungry for a fresh, new red Apple, this superb sort comes into market. In New York, Boston, Philadephia, and other eastern cities as well as middle western and southern cities, the fruit tells as quick as it hits the markethouse or dealer’s store. It holds its own anywhere and has proven to be the Best Summer Apple.

The rich bright red fruit catches the buyer’s eye and is ordered at a price that yields the grower a good profit. Apple is large, with tender crisp, white flesh, juicy, slightly tart. The trees come to bearing when quite young, producing trees and steadily. Fine for a filler or permanent tree, and being hardy, can be successfully grown in New England states and Canada. All orchards should include Williams Early Red.

A good pollinizer for Red Yarkong and Red Rome Beauty Apple trees.

---

SUMMER APPLES

Large, attractive with bright yellowish smooth skin, sometimes marked with a faint blush and numerous russet dots, flesh yellow, fine, very tender, crisp, juicy, aromatic and of extra fine quality, bringing highest prices. Recommended to those with nearby markets, but good for long distance shippers. Popular in Southern New Jersey.

DUCHESS OF OLDENBERG. Large, striped, tender, juicy, sub-acid, good, regular and abundant bearer. One of the hardest Best pollinizer for early blooming varieties.

TWENTY OUNCE. Very large, fine quality, yellow striped red.

WEALTHY. Medium to large size; round, almost sanded red, flesh white or a little stained, tender, crisp, juicy, fine, grained aromatic and very good flavor. Relatively good keeper. Old variety most extensively planted in North. Tree is very hardy, withstanding unusually cold climates; vigorous fruit at early age, bear regular and abundant crops. Tree somewhat dwarf, making a fine pollinator.

EARLY MCINTOSH. Resembles its McIntosh parent in appearance, but is less aromatic. An attractive, uniform red color, good size, flesh white tender and juicy. The trees are vigorous hard, healthy, productive, and bear annually. A fine especially in heavy, well-drained soils. The apple fruit is comparable to that of the late Red delicious. The crop ripens early, lasting into fall and not bitter-sweet.

RED SUMMER RAMBO. A new earlier coloring solid red strain means much greater profits for growers everywhere.

SUMMER RAMBO. A new late color good, with red.

EARLY RED DUCHESS. Highly colored early Apples being premium prices, that but sport colors red all over early in the summer. Excellent pollinizer for Red Gravenstein.

YELLOW TRANSPARENT. Medium size, greenish yellow, very heavy bearer, most widely planted yellow varieties.

RED GRAVENSTEIN. Write for more description. Excellent summer apple.

LARGE TRANSPARENT (Lodi)

You Can Depend on Bumper Crops—Plant Harrisons’ “Bud Selected” Strain

For Larger Quantity
Write for Special Prices

LARGE TRANSPARENT (Lodi)

A New Summer Variety

Ripens Very Early—Destined to Replace the Ever-Popular Yellow Transparent.

We believe there is a big future for this new summer Apple. Our commercial friends should lose no time in anticipating the demand for an Apple of this type. Somewhat of a dwarf grower, bearing very young it makes an excellent pollinator. The skin is a clear yellow, white flesh, of medium size. A good pollinizer.

EARLY APPLE GROWERS MAKE MORE MONEY WITH LARGE TRANSPARENT

Yes, actual profits, that’s what we mean. It can be done—here’s how. Yellow Transparent Apples are always first on the market and generally bring good profits when they attain proper size. Size on Yellow Transparent is hard to get, but easy on its big brother, “Large Transparent,” which ripens at the same time.

Large Transparent Apples Average Up to 1 ½ inch Larger Than Yellow Transparent—This Means $1.00 to $2.00 per Bushel Extra

OTHER SUMMER APPLES

STARR. Large, attractive with bright yellowish smooth skin, sometimes marked with a faint blush and numerous russet dots, flesh yellow, fine, very tender, crisp, juicy, aromatic and of extra fine quality, bringing highest prices. Recommended to those with nearby markets, but good for long distance shippers. Popular in Southern New Jersey.

DUCHESS OF OLDENBERG. Large, striped, tender, juicy, sub-acid, good, regular and abundant bearer. One of the hardest Best pollinizer for early blooming varieties.

TWENTY OUNCE. Very large, fine quality, yellow striped red.

WEALTHY. Medium to large size; round, almost sanded red, flesh white or a little stained, tender, crisp, juicy, fine, grained aromatic and very good flavor. Relatively good keeper. Old variety most extensively planted in North. Tree is very hardy, withstanding unusually cold climates; vigorous fruit at early age, bear regular and abundant crops. Tree somewhat dwarf, making a fine pollinator.

EARLY MCINTOSH. Resembles its McIntosh parent in appearance, but is less aromatic. An attractive, uniform red color, good size, flesh white tender and juicy. The trees are vigorous hard, healthy, productive, and bear annually. A fine especially in heavy, well-drained soils. The apple fruit is comparable to that of the late Red delicious. The crop ripens early, lasting into fall and not bitter-sweet.

RED SUMMER RAMBO. A new earlier coloring solid red strain means much greater profits for growers everywhere.

SUMMER RAMBO. A new late color good, with red.

EARLY RED DUCHESS. Highly colored early Apples being premium prices, that but sport colors red all over early in the summer. Excellent pollinizer for Red Gravenstein.

YELLOW TRANSPARENT. Medium size, greenish yellow, very heavy bearer, most widely planted yellow varieties.

RED GRAVENSTEIN. Write for more description. Excellent summer apple.

To Make One Tree Do the Work of Two, Plant Harrisons’ Bud-Selected, Heavy-Bearing Strains.
GRIMES GOLDEN
Harrisons’ Selected “Big Yield” Strain—Best Home Orchard Apple

Autumn, medium sized, golden yellow, tender, rich, aromatic, sub-acid, delicious, probably the best flavored Apple known, and a good keeper. No better variety exists for eating raw or for cooking. Tree is very hardy and one of the heaviest bearing producing extra large crops annually. Excellent variety for a filler, as it comes into bearing very early. Grimes Golden is the best pollenizer known, especially for Stayman Winesap, Lowry, Baldwin, Cortland, Rome, Winesap, McIntosh and others. Be sure to include Grimes Golden in your orchard. IT IS EASY TO GROW.

YELLOW DELICIOUS
It’s Golden!

A golden yellow Apple with decided “Delicious” characteristics. Yellow Delicious has a remarkably good flavor, and is most popular for eating during the fall and winter months. Late September and January finds it at its best. Many people think it superior to the famous Delicious. Fall.

A Prolific Cropper at an Early Age

The Yellow Delicious tree is very hardy, strong, and a vigorous grower. It is renowned for its heavy bearing of fruit at a very early age. You can depend on a good yield of ripened fruit each year. Excellent pollenizer for all varieties.

DELICIOUS
Sometimes Called Stark Delicious—This is the Original Strain of Red Delicious

Of peculiar and distinctive shape; brilliant dark red, fine grained, juicy, crisp and melting; flavor sweet, with a slight acid taste, with a delightful aroma, very highest quality. Fall. Harrisons’ Triple Red Delicious is superior.

McINTOSH RED
Improved Type—Heavy Yielding Strain Preferred by Many Growers in the North.

Until the discovery of our New Super Red McIntosh our improved McIntosh Red was the best strain of McIntosh available. It colors solid red when climatic and soil conditions allow it to remain on the trees until it is mature. This heavy yielding strain is much superior to any strain of McIntosh, especially the dull striped kinds. If you have not trouble getting sufficient color then we recommend you planting this time-proven, heavy yielding strain. McIntosh Red is very hardy and produces bumper crops each year. Generally considered as the best flavored Apple grown. Recommended for home or commercial orchard plantings.

OTHER GOOD APPLES

DOUBLE RED BALDWIN. A new dress for this old reliable variety. Solid deep red color, much earlier than ordinary Baldwin. The color makes it sell better. This new strain will bring new profits to the grower of Baldwins. Late fall.

CORTLAND. A new variety resulting from cross pollination of McIntosh Red and Ben Davis, and inheriting the good qualities of each parent. Beautiful red Apple, approximately the same size and fine flavor of the McIntosh, but ripens 3 weeks or a month later. Good keeper.

GALLIA BEAUTY. A Rome Beauty type of Apple identical in every respect, except its earlier coloring qualities; recommended for commercial plantings. Harrisons’ have the genuine original strain of Gallia Beauty.

JONATHAN. Medium to large, red, juicy. Good keeper and an excellent shucker.

KENDALL—A most attractive McIntosh strain—new variety. Try a few trees.

SPRING LANE—A cross between McIntosh and Yellow Newtown, very worthy of a trial planting.

CRAB APPLES

Priced on page 11

HYSLOP—Deepest crimson, large size, sub-acid and of good quality. Fine for all kinds of preserving, cooking, etc., and good to eat fresh. Tree handsome.

A HORTICULTURAL TRIUMPH—UNEXCELLED FOR

TRIPLE RED DELICIOUS—THE BEST
King of All Red Apples
Glorified Red Apple of the World
Ideal for Home Orchards
Harrisons' Triple-Red Delicious is not only a commercial Apple, but it is every bit as well adapted to the home grounds. Whether you wish to plant a thousand or if you have room for only one tree, Harrisons' Triple-Red Delicious will give full value. Very similar to Starking Delicious but colors earlier.

Budded Apple
2. Some as Parent in Flavor, Quality, Productiveness.
4. Produce Highest Percentage Fancy Fruit.
5. Tests Show They Come Into Bearing Sooner.
7. Completely Tested.
8. Excelled by No Other Red Bud Sports or Strains.
10. Greatest Profits.

TRIPLE RED DELICIOUS—Finest Flavored, Best of All

SCARLET RED STAYMAN
BRILLIANT COLOR
We offer to the public the greatest strain of Stayman Winesap ever discovered. It is a true bud sport found in a Stayman Winesap orchard. Scarlet Red Stayman takes on bright red color weeks earlier than ordinary Stayman. Its ripening date is the same but can be picked earlier if desired.

A Ready Market at Top Prices
Scarlet Red Stayman is the best general purpose Apple for planting in the East. Its solid scarlet-red color and its bright attractive finish causes it to command highest market prices. The fruit is large and it produces bumper crops each year.

FOR JUMBO APPLE TREES
SEE PAGE 17

SOLID RED WINESAP
Old Winesap generally has plenty of color when planted in most sections, but for those growers who want a more solid red-colored Winesap, we recommend our new strain.

THE APPALACHIAN WINNER
RED YORKING
(U. S. Plant Patent No. 125)
The Red Yorking is a "bud sport", being a mutation of the famous York Imperial. This "bud sport" originated on a tree, grown with other York Imperial trees, in Harrisons' Nurseries and later sold to Mr. W. H. Allison, near Shippsburg, Penna., for use in planting a large orchard about 40 years ago.

Superior to all Other Tested Strains
PLANT BIG TREES for QUICKEST and BEST RESULTS
RED VARIETIES
Flavored Apples
HOME OR COMMERCIAL ORCHARDS

RED ROME BEAUTY
An improved Rome Beauty, identical in vigor and production. Color of fruit much brighter and solid red. Produces much higher percentage of fancy Apples and also superior in quality to the ordinary strain of Rome Beauty. Red Rome Beauty is renowned for bearing at a very early age, producing bumper crops of large size Apples. The tree is a vigorous, strong grower, exceedingly hardy. Pacific Coast strain. Has always been very popular.

NEW STRAINS OF RED ROME
Can supply two new additional red budSport strains known as C. and O. Red Rome also C. and O. Red Rome number 262.

SUPER RED McINTOSH
A new strain of McIntosh Red that starts coloring earlier and produces a larger percentage of extra fancy fruits. Super-Red McIntosh, when allowed to mature on the trees, is slightly darker in color than our regular improved McIntosh Red. Has all the best qualities of ordinary McIntosh and will mean larger profits for growers who have been unable to get sufficient color. McIntosh has been the favorite in the North; this new strain extends the planting area farther South. The most highly colored solid red strain available, regardless of price. We have some exceptionally good one-year trees and fine two-year trees to offer this season. Plant McIntosh strain of Apples for big profits, equally as good in home orchards as it is commercially.

HARRISON BROTHERS NURSERIES, BERLIN, MARYLAND

RED SPY—Bears Crisp, Juicy Apples

RED SPY
A new "bud sport" from New England. Identical with the ordinary Northern Spy in fruiting habit. Extra large size fruit, strong, vigorous, hardy trees. Comes into bearing earlier than the ordinary strain. Colors early, nearly every Apple being solid-red in color. We recommend it for commercial and home plantings in northern states.

BRIGHT RED JONATHAN
We searched the country over to find a strain of Jonathan that had more color than our selected Big Yield Strain of Jonathan. After thousands of miles of travel inspecting all of the new strains of this famous variety we found the one we had been looking for. It colors solid red several days earlier, otherwise it is identical with ordinary Jonathan. Growers who want more, deeper colored apples will find our Bright Red Jonathan the best colored strain obtainable.

RED GRAVENSTEIN
Here is the Apple that has been overlooked by eastern growers. Old-fashioned Gravensteins have been grown in tremendous volume during the past twenty-five years, mostly in California, a few in the Eastern States. The old strain lacks the color to make it sell. Our new Red Gravenstein colors a solid bright red long before it is ripe. The quality of Red Gravenstein is extra good for an early Apple and its ability to carry to distant markets, even after it gets solid red, makes it command the highest prices.

HARRISON BROTHERS NURSERIES, BERLIN, MARYLAND
A WHOLE ORCHARD
FOR ONLY $2.50

Five Varieties of Apples for Fresh Eating from Late June Until Early November produced on the same tree

Here's the opportunity for those with limited space to have five mighty desirable varieties of Apples, all budded on one tree for a little more than the cost of one tree. Requires only 20 ft. space when fully grown. Each tree is budded to Large Transparent for first summer varieties, Williams Early Red, Red Gravenstein, Triple Red Delicious and Yellow Delicious for autumn varieties. Scarlet Red Starrman and Red Rome Beauty for winter varieties.

Budded to 7 varieties, however, guaranteed to have 5 or more
2 year, 4 to 5 feet, well branched at $2.50 each
2 year, 5 to 6 feet, extra well branched with good heads, at $3.25 each
Jumbo Size, 3 year, 6 to 8 feet, extra well and heavily branched with beautiful heads at $4.50 each.

If Your Space Is Limited
Plant one or two of these novel trees. You will have a variety of Apples maturing over a long season. Desirable as an ornamental and shade tree, as well as for its fruit.

Grow Your Own
DELICIOUS! NUTRITIOUS

ASPARAGUS

It's Easy with

Harrisons' "Big Yield Strain"

MARY WASHINGTON

Highly Profitable and Easily Grown

Being the first vegetable to come in the spring it always brings a high price on the markets. Stalks being delicious and very healthful, every garden should have a generous supply and when properly set and cared for will last a lifetime.

A Jumbo Size Apple Tree Will

Furnish You Fruit and Shade, Too

Extra Good for Home Orchards
ABUNDANCE. Early, large, color pinkish red changing to darker red, with thin bloom. Yellow flesh, very juicy, sweet and tender, pleasingly aromatic. Hardy, very productive. Adapted to a wide variety of soils and climates.

BIG MACKLEY. Late, large and best Damson, being an improved strain of Shropshire Damson. Freestone, deep purple, juicy, rich flavor, small stone. Fine for preserving. Easy to grow, produces immense crops. Should be planted in every orchard. Large size fruit makes ideal preserves and jellies. Excellent variety for fresh fruit shipments to city markets always demanding high prices.

BURBANK. Early, about one week after Abundance. Large, cherry-red with thin bloom. Flesh, amber-yellow with rich, sugary flavor; high quality and very productive. A product of Burbank, the master plant breeder. Should be in every orchard.

FORMOSA. A midseason variety of excellent and prolific bearing qualities. Large greenish yellow, overlaid with red. Alternate bearer. Heavy cropper.

ITALIAN PRUNE (Fellenberg). Late, medium size, freestone, dark purple, delicious. Fine for drying.

GRAND DUKE PRUNE. Late, Commercial variety. Purple black, juicy, sweet, excellent for cooking.

LUMBARD. Midseason. Medium size, showy, purplish red fruit, excellent quality for canning, preserving or splicing. Prolific variety.

BRADSHAW. Very large, fine early Plum; dark violaceous color and size. Very productive; valuable for market. Quality is excellent, color attractive. Good canner.

Extra Good Fruits for The Home Garden

APRICOTS
The Apricot is one of the most delightful luscious fruits grown, when eaten fully ripe and fresh from the tree. It is remarkable that such a rich and beautiful, golden, sweet fruit is not planted more, especially since it ripens just after the early Cherries and before the best early Peaches.

ALEXANDER. Early, prolific, freestone, orange, with red blush; very juicy and sweet flavor. A large, prolific sort that will withstand adverse weather conditions. This variety deserves greater popularity. The best.

EARLY GOLDEN. Pale orange, juicy and sweet. A hardy, prolific bearer, ripens first of July.

SUPERB. Very good quality. Fruit is beautiful, light salmon colored, best of the older varieties. Tree is large, very thrifty, hardy and is extremely productive in fruit.

MOORPARK. Midseason. Large, freestone; flesh yellow, sweet, plump. Good for canning or drying. Dwarf type, medium size tree.

APRICOTS CAN BE GROWN ANYWHERE PEACHES SUCCEED

NECTARINES
Delicious for Eating
There is a mistaken idea that the Nectarine is a cross between the Peach and something else, while it is really nothing more or less than a smooth-skinned Peach. The melting, juicy texture of the Nectarine and its delicious flavor furnishes one of the most delightful fruits for eating during the summer. Plant a few trees in your home orchard this year.

SURE CROP. Very vigorous and productive. The fruits are large, roundish, white and overlaid with very attractive red. Very pleasing flavor.

Montmorency

The most popular Sour Cherry grown in America. It ripens midseason, is large, red, slightly acid, flesh very tender, good quality. The best shipper of all Sour Cherries; always commands the highest market prices in city markets or commercial canneries. When preserved at home or commercially, it is always attractive in appearance and of extra good quality.

Early Richmond. Exceedingly hardy and productive.

English Morello. Large, blockish red Cherry. Hardy and productive. Very late.

SWEET CHERRIES

What fruit is more pleasing than the Sweet Cherry? The ideal fruit to plant in the back yard. We have a good supply of first-class trees in the following varieties:

BING. Very large, dark brown, flesh firm, sweet. Midseason.

BLACK TARTARIAN. Very large, sweet, purplish black color, juicy, rich flavor, heavy bearer and most profitable sweet variety grown. Early.

GOVERNOR WOOD. Large, light yellow, marked with red, sweet flavor.

LAMBERT. Extra large, sweet, jet black, very popular. Midseason.

NAPOLEON. (Royal Ann.) Large, pale yellow, bright red cheek, sweet, excellent flavor, prolific bearer. Midseason.

SENÉCA. Resembles Black Tartarian, but ripens two weeks earlier, rich sweet flavor.

SCHMIDT. (Schmidt's Bigarreau.) Large, sweet, deep black, tender, fine flavor. Midseason.

WINDSOR. Large, sweet, almost black, fine quality. Valuable late variety.

YELLOW SPANISH. Large, sweet, yellow with red tinge. One of the most beautiful and popular of the light-colored Cherries. Heavy bearer. Midseason.

HANSEN'S IMPROVED

Bush Cherry

An ornamental shrub producing delicious fruit. Very easy to grow, highly productive and hardy. The fruit is large, black and sweet, wonderful to eat right from the bush. Introduced by Dr. Hansen of the South Dakota Experimental Station. Leaves are silvery green, turning to red in autumn. Attractive white blossoms add to landscape effect.

3-Year Bushes, Bearing Size, $1.00 each; 10 for $9.00.
The New Mammoth Berry That Will Revolutionize the Berry-Growing Industry

NEW LOWER PRICES

The new Boysenberry is truly a glorified Yauponberry. We offer it again this year because of the tremendous large size of the berries, because of its very prolific fruiting; and lastly, because we think that it has the highest quality of all bramble fruits. They are just as easy to grow as Blackberries. They produce a larger crop, not because there are more berries, but because each berry is so much larger. Has a rich, tangy flavor all its own.

No. 1 Plants: 3 for $1.15; 6 for $2.05; 12 for $2.95; 25 for $4.65; 50 for $8.10; 100 for $14.05; 250 for $30.40; 500 for $48.85; 750 for $66.95; 1000 for $85.00.

Lucretia Dewberry

Long, mammoth Blackberries, recognized as the leading variety, incomparably better in every way than any Blackberry you have ever seen or tasted. Lucretia is a very early bearer, ripening from a week to ten days before even the earliest Blackberries. Big, uniform size makes them topnotchers in price at any market. For real profits and for home and commercial growing, Lucretia is the only variety of importance.

No. 1 Plants: 6 for $1.20; 12 for $1.75; 25 for $2.75; 50 for $4.75; 100 for $8.25; 250 for $17.80.

ELDORADO BLACKBERRY

A Heavy Yielding Blackberry that Spells Success Everywhere

The Heaviest Yielding Variety. The heavy producing quality of Eldorado has placed it first among Blackberries. Every good quality passer by other Blackberries is emphasized in Eldorado. Berries of enormous size, shiny jet-black, sweet pleasing flavor.

For Home or Commercial Planting. It is valuable for all purposes, both home and commercial, being so firm that it will remain in good condition for three and four days, and can be sent to distant markets where it always commands the highest price. This variety is making big money for other growers and it will do the same for you.

NEW LOWER PRICES OF BLACKBERRIES: Selected plants, 1-yr., No. 1 grade, 6 for $1.45; 12 for $2.10; 25 for $3.30; 50 for $5.70; 100 for $9.90; 250 for $21.40.

GOOSEBERRIES

RED JACKET. Big roundish oblong berries with a mild sweet flavor. Delicacy for fancy desserts, salads, conserves, pies, etc. Bushes lovely as shrubs. Small, yellow blooms.

DOWNING (Green). Large greenish-yellow variety favored for shipping and canning. Highly flavored.

NEW RED LAKE CURRANT

NEW RED LAKE. Biggest sweetest finest improved Red Currant on the market. Large bunches, produced in profusion. Extra hardy.

WILDER. One of the strongest growers and most productive. Bush and berry large, bright, attractive red color.

Large, 1-yr. bunches, $1.00 each; 3 for $2.85; 6 for $5.40; 10 for $8.00.
Grow Finer Flavored Berries
With Harrisons’ Select Certified Raspberry Plants

LATHAM
WORLD’S LEADING RASPBERRY
The sensational yields of this variety have attracted the attention of growers everywhere, and all those who have given it a trial are praising the many unusual features they have found in Latham. After thoroughly testing Latham we find it a remarkable variety in every respect you will be both delighted and surprised after giving it a trial.

Large Berries—Tremendously Productive
Latham is a tall, vigorous grower, the canes are extra heavy, well able to support the load of fruit. The foliage is healthy, dark green, tough and leathery, highly resistant to insects. Latham ripens with Cuthbert, covers a longer fruiting season. The berries are beauties and will cause a sensation wherever they are shown. Many are over an inch in diameter and they hold this size to the end of the season. Color dark, rich red.

A Blue Ribbon Winner for the Home and Commercial Grower. It simply cannot be equalled.

HARRISON BROTHERS NURSERIES
BERLIN, MARYLAND

CUMBERLAND
Midseason to late. This is the most popular Blackcap of the present time, because of its great size, firmness, and productivity. The fruit is the largest of the Raspberry family, and is of such handsome appearance that it is sure to bring the top prices on the market.

A BIG CROP EVERY YEAR
Cumberland has never been known to fail to produce a big crop every year. This variety is perfectly hardy and tremendously productive, the bushes are vigorous, upright and healthy. Berries are glossy black in color, not equalled by any other variety in quality, flavor and appearance. It’s good to eat and good to sell.

Here’s Another Extra Good Blackcap—The Mammoth New MORRISON
This brand new variety has been a sensation wherever planted. Mammoth sized berries, glistening jet-black color, rich flavor, fewer seeds, heavy producer. The thrifty, strong, hardy plants are heavily rooted and disease resistant. Easy to grow, excellent for canning, eating fresh, freezing. Ripens slightly later than Cumberland.

INCREASE YOUR PROFITS WITH
HARRISON'S BIG YIELD GRAPE VINES
BEAR BETTER CROPS
OF BETTER FRUIT.

Harrison Brothers Selected Varieties Grapes

CACO. Red. Midseason. Fruit is very large and handsome. A rich wine-red color. Not a very rank grower and a shy bearer.

FREDONIA. Blue. Very early. Originated by New York Experimental Station. The bunch and berry are large, with excellent, juicy, delicious flavor. Vigorous and productive. Ripens fully ten days before Moore's Early.

NIAGARA. White. Midseason. Best of the standard light colored Grapes. Bunches of large greenish white berries change to pale yellow when fully ripe. A rank grower and very productive. Popular with vineyardists and home gardeners in the North, as well as the South.

WORDEN. Blue. This excellent Grape is as hardy, healthy, vigorous and productive as Concord, of which it is a seedling, but better in quality. It is sweeter, larger in bunch and berry. Several days earlier. Valuable for garden and vineyard.

PECANS—Abundant Nuts in Winter

HARRISON'S HI-QUALITY TREES

[22]
NEW GIANT Cultivated Blueberries

- Profitable to Grow
- Delicious Berries
- Very Ornamental

**Once Planted Lasts a Lifetime**

Blueberries are not only the largest money makers of all time commercially, but are also one of the easiest fruits to grow. The berries bring up to $75 per quart—$400.00 per acre the third year. They are exquisitely mild, sweet and delicious, and bring highest prices on the market. The demand for Blueberries is practically unlimited. A planting lasts a lifetime with proper care and the plants will pay for themselves their first crop. A few bushes planted in the shrub border and in the garden will be sufficient to supply you with berries for years.

**Blueberries—Easy to Grow**

Set the bushes 5 by 7 feet apart in moist, acid soil. If your soil is sweet, it may be made acid by mixing with it a little quantity of acid peat, rotten leaves and pine needles, or similar material. Fruit ripens over a period of several weeks. Plant two or more varieties so as to insure proper pollination.

**Very Ornamental**

As an ornamental shrub the Blueberry cannot be surpassed. Full of lovely pink blooms, which open to bell-shaped, white flowers in June. Plants are compact, low growing, having wavy green leaves which turn red during the fall. Twigs are reddish brown and very showy during the winter.

**BLUEBERRIES—Ornamental as well as fruitful**

**Jumbo Size—Bear First Year Planted**

**SPECIAL JUMBO SIZE BLUEBERRY PLANTS**

Have already fruited in the nursery. Ready to bear big crops of luscious berries on your own grounds and are as easily grown as a shrub or Rose bush. You can pick delicious berries the first season planted, and each year they will produce a larger crop with very little attention. We only have a few hundred of these Jumbo sized plants to offer. Can supply in the following varieties only: Cabot, Rancocas, Concord, Rubel, and Jersey.

**Prices:** Jumbo size 4-year-old, 2 to 3 ft., $2.50 each; 3 for $6.75; 10 for $20.00.

**NEW LOWER PRICES OF ALL BLUEBERRIES**

**LEADING BLUEBERRIES**

Listed in Order of Ripening

- **Cabot.** Plants seldom exceed three feet in height and make a broad, low bush. The color of the new growth in winter is a light red over olive. The large berries have a delicious sub-acid flavor.
- **Rancocas.** The bush of slender, vigorous, upright habit barely surpasses five feet in height. The winter twigs are a dark red. The berries are somewhat larger than those of Rubel and begin to ripen several days earlier.
- **Concord.** The bush is of upright habit and at maturity exceeds six feet in height. The young growth is bright red in winter. The berries are large, frequently reaching three-quarters of an inch in diameter. They usually ripen a few days earlier than Rubel and are fine in flavor and appearance.
- **Rubel.** A vigorous, productive variety. Well developed bushes stand six feet high and the winter color of the young growth is a rich red. The large berries of fine color are usually ready to pick the first week in July. Best commercial variety.
- **Jersey.** The bush is of vigorous habit and grows very large. The winter color of the young growth is a rich red over golden brown. The berries are the largest of any here listed, light blue and ripen about the same time as Rubel.

Harrison Brothers Nurseries
Berlin, Maryland
NEW is produce much good TVrtl big r easier its This fruit midseason selected very sell late a years entirely Soils cross fine fact, the need Be is your The firm does a All first good a soil picking. Deep, Jndii Fou Harrison Leaders producing variety berries healthy because fore ably outstanding is ingly the ever crates, when pant becomes as bio becoming large, exceptional Standard grower of America. For berries. Result ripe berries—extra firm and pleasing. It is a big yielder of big, bright red berries of fine flavor. For home gardens, local markets, or for shipping moderate distances it has outs olded all the other varieties. Harrison Strawberry Plants Are Bred Up for Bigger Yields and Tell the Story at Harvest Time.

**BIG JOE** The Old Reliable Midseason Variety LARGE YIELD—FANCY FRUIT FINE FLAVOR

Big Joe is a heavy producer of large, brilliant red berries of extra fine flavor and is firm enough to withstand long shipments. The plants are good growers and heavy yielders. This variety succeeds on all types of soil but does extra well with good care and fertility. Be sure to include Big Joe in your planting this spring. Our big yield strain insures big crops.

**CATSKILL** Midseason

A midseason berry that will produce the largest crops of bigger berries of any midseason variety. Catskill is entirely satisfactory as to firmness, quality, color and attractiveness, season of ripening and climatic adaptation. The highest record of marketable berries was made with this variety. In shipping respects it ranks with Chesapeake and Lupton. It is rated equally as attractive as Fairfax or Dorsett. The berries are borne on rather long fruiting stems which makes it easier to get all in picking.

**CHESAPEAKE** The Favorite Late Berry

It is a good producer of very large berries that hold the shape well until the end of the season. It does not yield as many berries per acre as some of the early varieties, but the size and quality of its fruit enables it to sell for a much better price which offsets this dis advantage. The berries are firm enough to ship to distant markets and to arrive in first class condition. An exceedingly valuable commercial berry but equally adapted for home plantings. We offer a selected “Big Yield” strain.

**RED STAR** HER'S A NEW ONE Extra Good—Very Late

This is the other new one by the U.S.D.A., and a cross between the Chesapeake and Fairfax. This is the late one. Berries are large, and are borne on short, stout stems that stay well under the leaves, thus protecting them from late frosts. Makes a good fruiting row, and plenty of money can be made from growing this one, as late berries always bring a high price.

**TEMPLE** The Successful New Variety—Can Be Grown Anywhere.

Here is the Easiest Berry to Grow

If you have ever tried raising Strawberries and failed, here is the berry for you to try. It will grow on light, sandy soil as well as heavy, water-soaked kinds. The quality of this variety is excellent and its plant growing characteristics are supreme. Berries are extra large, firm, beautiful in appearance, fine texture and flavor. Excellent for freezing, canning, eating fresh, also local and long distance shipments. This berry is the result of years and years of cross-bredding work and is unquestionably the finest new berry for both commercial and home plantings that has been introduced in many years. It has our highest recommendation.

**DORSETT, Early**

Large Fruit— Vigorous Grower— Heavy Crops

Dorsett berries average large size, considerably larger than the Premier; in fact, their size is comparatively with Chesapeake, which is the outstanding late berry. Plant growth is exceedingly vigorous, being far more vigorous than most other varieties. Dorsett yields large crops of fancy, light red berries.

**FAIRFAX, Early**

The Sugar-Saving Berry

Color is a deep, full red; its rich, sweet flavor brings buyers back for more. Fairfax berries are exceptionally firm, making it an ideal shipper. Superior to all for home use, equal to any for commercial planting.

**PREMIER** King of the Early Berries

Too well known to need much description. The variety of early berry by which all other varieties are judged. Holds all records for big crops and big profits. Premier has filled more crates, made more dollars, and brought joy to more Strawberry growers than any other variety ever grown.

Adapted to All Soils— Heady Yielder. It thrives on most any type of soil and is a rampant plant maker. Premier fruits extra early when berries are selling at a high price. It is a big yielder of big, bright red berries of fine flavor. For home gardens, local markets, or for shipping moderate distances it has outclassed all the other varieties.

**BLAKEMORE**

No Strawberry has become so popular so quickly as Blakemore. It is the most popular variety in all America. Ripes several days before Premier and is equally dependable, producing big crops every year. The plant is healthy and stands up well during drought. The berries are large, firm, an attractive red and good quality. Fine for canning and preserving because it holds its color and shape so well.

**HARRISON'S SELECTED BERRY FRUIT**
Pick World’s Finest Strawberries From Your Own Plants

A Big Profit From Your Own Back Yard

Everybody prefers the flavor of vine-ripened Strawberries. They are more delicious and usually sell for 10c to 25c more per quart. Customers pay premium prices for garden fresh Strawberries and small growers make real money, up to $500.00 per acre.

Whether you have a small garden or several acres, you can make a big extra cash income by planting Harrisons' "Big Yield" Strawberries. Others are doing it, why not you. It costs only a few dollars to get started.

Extra!

The Greatest Everbearing Strawberry

SWEET AS HONEY—EXTRA LARGE
EXCELLENT FOR EATING FRESH OR FREEZING
MAKES HEAVY FRUITING BED

• Berries in 90 days or less. No need to wait several months. Plants planted in March or April will commence bearing in early July and bear until frost.
• Three Big Crops From One Planting. Streamliner needs no nursing along as some everbearers do. They are thrifty growers, and do not require exacting soil requirements. Pick your first crop this summer and fall, second crop next June, third crop the following summer and fall.
• It costs less to grow your own berries if you plant Streamliner. Easy to grow, just space them 12 to 15 inches apart in the row with the rows 2½ feet apart.
• Profitable to raise. Grow all the berries you need for your own use and sell the rest to your neighbors.

Harrisons Everbearing MASTODON

A Triple Yield

1—Plant this spring.
2—Pick first crop, July to frost.
3—Pick second crop, June next year.
4—Pick third crop, August to frost next year.

3 REAL CROPS—3 BIG PROFITS
Bears in 90 Days, and, too. It's the Best Family Garden Strawberry— Loads of Big Berries in 90 Days

Unlike the other varieties, Mastodon begins to bear luscious berries 3 months after planting and bears three big crops in 18 months. Customers have reported yields as high as three quarts per plant the first fall.

WHY WAIT A WHOLE YEAR?
Plant Harrisons' "Big Yield" Mastodon this spring, and grow your own berries this summer and fall, instead of buying them. If you have more than you can use, they are easily disposed of in the nearby community, where they will bring top prices.

Harrisons' Selected Strain "Big Yield" Strawberry Plants Are Better

1—Sixty-five years' experience in growing, propagating and handling Strawberries.
2—Every plant propagated by Harrison is the offspring of a selected plant that is outstanding in vigor and productiveness.
3—Absolutely free from diseases and insects.
4—Grown on specially nurtured high ground soil.
5—Our method of digging enables us to get all the roots.
6—Clean, graded and packed in modern packing house.
7—Absolutely true to name.
8—Prompt service.
9—Better plants for less money.

American BOXWOOD
GROWN BY HARRISON BROTHERS
BERLIN, MARYLAND

— the real Aristocrat of the Evergreen family

YOU CAN SECURE THE FINEST SPECIMENS IN AMERICA FROM HARRISON'S

Possibly no evergreen shrub has been so much used for marking the boundaries of formal gardens, to outline flower beds, for low hedges, and for other ornamental purposes. The plants will adapt themselves to almost any situation and climate, and by judicious pruning can be trained to many forms.

Compact—Deep Glossy Leaves

Our Boxwood has deep glossy green leaves. They are dense, compact specimens, having been sheared many times. The leaves

on this variety are small and resemble the dwarf English Boxwood. This variety is a dwarf grower, but it makes much faster growth than the English Boxwood. For those who want large Boxwood plants in a few years, this is the best variety to plant.

PRICES OF AMERICAN BOXWOOD
10 to 12 inches $1.50 each; 13 for $12.50

OLD ENGLISH BOXWOOD

The famous Dwarf Boxwood so much admired in old gardens. Slow growing, compact, most attractive. Will grow in sun or partial shade.

3 to 4 in. 55c ea.; 10 for $5.00
4 to 6 in. 55c ea.; 10 for $7.00
6 to 8 in. 1.25c ea.; 10 for $11.00

Out-Harrys'—Fine Boxwood

Prices for English Boxwood. Available in England and the South. This variety is a dwarf grower, but it makes much faster growth than the English Boxwood. For those who want large English Boxwood plants in a few years, this is the best variety to plant.

PRICES OF ENGLISH BOXWOOD
10 to 12 inches $1.50 each; 13 for $12.50

IRISH JUNIPER

Forms a narrow and dense column, compact, bluish green foliage. Most attractive when planted around the foundation of a home at corners and entrances. Price: 24 to 36 inch $3.00 each.

All evergreens are shipped with Moss on the Roots.
HARRISONS’ BUD SELECTED

and BETTER SPECIMENS

EVERBLOOMING HYBRID TEAS

ETOILE DE HOLLANDE. At present considered most popular of crimson Hybrid Teas. Velvety scarlet-crimson with delicious fragrance, and enormous petals. It charms continuously with its delightful color, vigorous growth, and well-formed flowers on long stems. Faultless.

EDITOR McFARLANO. A very fine brilliant pink Rose, destined to great popularity. GOLDEN CHARMS. All that its name implies. Deep golden buds opening to clear golden yellow. One of the best yellow Roses, and grows successfully throughout the nation.

Kaiserin Auguste Viktoria. Perfect creamy white bloom, slightly tinged with lemon, large and full. Long, shapely buds to full petalled, deliciously scented bloom. An old favorite that even today has not been surpassed.

PINK RADIANCE. A brilliant carmine-pink with yellow shading at base of petals, having a light silvery tone on the inside, and deeper on the outside. Vigorous, free bloomer, parent of Red Radiance. Among the oldest Roses, it has made good everywhere.

PRESIDENT HERBERT HOOVER. One of the outstanding Roses. A glorious new Rose of vivid cerise-red toned with yellow, orange and scarlet, richly perfumed and free flowering.

RED RADIANCE. A sport of the famous Radiance and identical in all characteristics, except color. A brilliant cerise-red color, and intensely fragrant. Tall and bushy, healthy foliage and excellent blooming qualities. The favorite red Rose of America’s millions.

The Colorful PEONIES

THEY RIVAL THE ROSE

Once planted they last for years. These should be several planted in every yard. Their large, bright colored flowers during May and June furnish an abundance of flowers for the home. Can supply the following colors: WHITE, PINK, and RED, State, or desired.

Prices: 75c each; 3 for $1.95; 10 for $5.50.

EVERBLOOMING Hybrid Teas

CONDOR DE SASTAGO. Marvelously colored Rose with large cupped flowers of coppery red inside and rich yellow outside. A profuse bloomer at all times, keeps well when cut, and is spicily fragrant. Compares with the Radiance Rose in vigor and hardiness.

GOLDEN DAWN. Considered the finest yellow Rose. Blooms of soft lemon-yellow tinted with old rose markings, long-lasting, fragrant and richly perfumed. Hardy, bushy, medium height, and very vigorous.

WHITE RADIANCE. A genuine white sport of the ever-popular Pink Radiance. Very vigorous, tall and bushy. Thrives extra well; intensely fragrant. Should be in every garden.

POINSETTIA. Brilliant rich scarlet-red. Huge, ideal long, pointed buds; gloriously rich, and deepest scarlet. Vigorous, tall grower, long stems, and richest scarlet-red. Grand, being a very fine Rose. Should be planted in every Rose garden.

TALISMAN. A multi-colored, gloriously combinations of orange, yellow and rose-red. Very vigorous, tall and bushy. Thrives extra well; intensely fragrant. Should be in every garden.

America’s Finest Flowering

Extra!

NEW WEEPING FLOWERING PEACH
A beautiful red flowering Peach that has a decided weeping effect. This Peach has bloom and weeping characteristics, somewhat similar to Japanese Weeping Cherry. A fine new discovery that is worth of planting in every lawn or garden.

Each
1 to 2 feet $1.25
2 to 3 feet 1.75
3 to 4 feet 2.25

FLOWERING ALMONDS. Nearly always seen in old-fashioned gardens, and in early spring it is covered with little Chrysanthemum-shaped flowers, very charming. Double white or double pink. Stake colors red. 18 to 24 inches. $1.50 each. 2 to 3 ft. $2.00 each.

PURPLE-LEAVED OTHELLO PLUM
Upright grower, foliage brilliant reddish purple, holding its color throughout season. Prolific bearer, with crimson fruit producing ornamental effect.

Each 4 to 5 feet $1.00
5 to 6 feet 2.25

AMERICA’S FINEST FLOWERING

RED FLOWERING DOGWOOD
Cornus Florida Rubra
One of the most popular small ornamental trees. Handsome red flowers in early spring. Makes an attractive foundation specimen.

Each
1 1/2 to 2 feet $2.50
2 to 3 feet 3.50

WHITE FLOWERING DOGWOOD
Cornus Florida
One of the native spring flowering small trees with white flowers and bright red berries in fall.

Each
2 to 3 feet $1.50
3 to 4 feet 2.00
4 to 5 feet 3.00
5 to 6 feet 4.00

KWANZAN—PINK FLOWERING CHERRY—Large, double pink blossoms borne in profusion. Tree vigorous and upright in growth. Most lovely of all flowering cherries.

Prices: 5 to 6 feet $3.75 each

DOUBLE WHITE FLOWERING CHERRY—Large, double white blossoms, vigorous grower, withstands adverse weather more than most flowering cherries.

Prices: 5 to 6 feet $1.75 each

ELEY FLOWERING CRAB APPLE—Here is the small tree to add color to your planting. Beautiful reddish purple foliage all season. Wine colored blossoms during spring, followed by multitudes of small, good-red fruits during the fall. A real beauty.

Prices: 5 to 6 feet $2.75 each

WEeping FLOWERING CHERRY—One of the most beautiful of flowering trees. Drooping branches covered with delicate clusters of dainty pink flowers in early spring.

Prices: 4 to 5 feet $5.50 each

Buchtel’s Flowering Crab Apple

Only genuine double-flowered Crab. When in bloom appears to be covered with delicate pink perfection. Double small Roses of delicious fragrance. Best Flowering Crab Apple.

Each
1 1/2 to 2 feet $1.50

MULTIFLORA ROSES—BEAUTIFUL FLOWERS
Abundance of Berries For Birds

MULTIFLORA ROSES are Recommended by U.S. Soil Conservation Service for Soil-Erosion and the most practical plant for Wild Life.

Bechtel’s Flowering Crab Apple

Only genuine double-flowered Crab. When in bloom appears to be covered with delicate pink perfection. Double small Roses of delicious fragrance. Best Flowering Crab Apple.

Each
1 1/2 to 2 feet $1.50

DOUBLE RED FLOWERING PEACH
During early spring the flowering Peaches are covered with a mass of beautifully formed and highly colored double flowers. Highly recommended. Perfectly Hardy, thriving in clay soil in which other Peaches grow. We make a specialty of growing Flowering Peach trees and have several hundred to offer. We offer Double Red.

Each
4 to 5 feet $1.75
5 to 6 feet 2.25

Peaches

Prune in May. Plant Peaches 10 feet apart. Make a mulch around each tree to ensure a crop of Peaches. This mulch will protect the young tree from frost damage. Use a complete fertilizer for best results.

CHINESE CHESTNUTS

Now You Can Grow Chestnuts! Blight-Resistant Chestnut Trees

Only two years from this fall, right in your own grounds, you can pick big, fat, tasty Chestnuts from the trees you plant this year! Remember gathering Chestnuts in the good old days—haven't you felt sorry for your children because they couldn't? The devastat ing blight that stripped our forests of the native Chestnut was an American tragedy! Now these hardy, blight-resistant Chestnut trees will bring them back. More than that, you need not wait 15 to 20 years for nuts—they'll bear year after year!

Plant in abundance Harrisons' strain of Chinese Chestnut Trees.

PRICES: 2 to 3 ft., $2.50 each.

AMERICAN FILBERT
(Hazel Nut)

Old family favorite. Small, attractive bush, yielding abundant crops of tasty, round nuts. Bears very young.

PRICES: 2 to 3 ft., $2.00 each.

ENGLISH WALNUT
(Juglans Regia)

Thin shelled, large, delicious nuts, producing heavy crops and demanding good prices. The most popular Walnut grown.

PRICES: 2 to 3 ft., $2.75 each.
AZALEA HINODEGIRI

Deep Coral-Pink Flowers

Azalea Hinodegiri is a dwarf grower with evergreen foliage. In the spring it produces a profusion of deep coral colored blossoms, completely hiding the foliage. Ideally suited for planting around the foundation of homes or adding color in front of evergreens. Grows well in the shade or sunlight.

Each
4 to 6 inches ...........................................$1.00
6 to 8 inches ...........................................1.50
8 to 10 inches ..........................................2.00

CREPE MYRTLE (Lagerstroemia Indica). Small green, glossy leaves; very beautiful showy flowers during midsummer to fall; attractive object in any landscape. Not hardy north of Mason-Dixon line, but most popular southern shrub. Pink and red varieties. 1 1/2 to 2 ft., $1.50 each.

QUINCE, FLOWERING (Cydonia Japonica). Scarlet flowers in April and May. No doubt one of the most attractive spring blooming shrubs. 1 to 1 1/2 ft., $1.00 each.

SPIREA ANTHONY WATERER. Crimson flowers in large, flat clusters. Blooms early and continues till fall. 15 to 18 inches, $1.00 each.

BEAUTY BUSH. Pink tubular flowers, heavy bloomer. Hardy. 2 to 3 ft., $1.25 each.

HYDRANGEA PEE GEE (Hydrangea Paniculata Grandiflora). Large flowers; first snowy white, then pink, changing to reddish brown in the fall. Blooms midsummer to fall. 18 to 24 inches, $1.00 each.

GARDENS BURST INTO GLORY

With blooms of Harrisons’ Berlin, Maryland, grown Hi-Quality Flowering Shrubs.

PRICES OF SHRUBS BELOW

Each 3 for
1 1/2 to 2 feet .............................................$0.70 $1.95
2 to 3 feet .............................................. .80 2.25
3 to 4 feet ..............................................1.00 2.85

SYRINGA, SWEET MOCK ORANGE or GARLAND (Philadelphus Coronarius). Of upright habit, and produces in June a wealth of white, fragrant flowers.

SWEET-SCENTED SHRUB (Calycanthus floridus). Hardy native with many double, chocolate-colored flowers in May. Flowers, leaves and wood have a spicy fragrance.

TAMARIX, AFRICAN (Tamarix Africana). Feather gray-green foliage; very showy.

TARTARIAN HONEYSUCKLE (Lonicera Tatarica). Very attractive in blossom, producing an abundance of flowers followed by red fruit. We offer pink and white varieties.

WEIGELA, PINK (Weigelas Rosa). The most popular Weigela sold today. Its delicate pink, bell-shaped flowers are borne in great profusion along arching branches.

ALTHEA or ROSE OF SHARON (Hibiscus Syriacus). The double and single flowers are formed in varying colors. We can supply double red, white with crimson center, and double white.

BUDDLEIA MAGNIFICA. New and undoubtedly the finest of all the summer-flowering butterfly bushes. Large bright lavender panicles. Flowers do not sunburn as do other varieties. Foliage heavy rich dark green. Very hardy.

DEUTZIA, PRIDE OF ROCHESTER. Double white flowers, slightly tinged with rose, appear in mid-June.

DOGWOOD, RED-BRANCHED (Cornus Alba Sibirica). Bright red bark, white flowers, blue fruit; rapid grower; beautiful winter effect.

GOLDEN BELL (Forsthe). Vigorous, upright grower; profusion of yellow flowers in April. One of the best early blooming shrubs.

HONEYSUCKLE, BUSH (Lonicera Morrowii). Early white flowers in June, followed by red berries.

DWARF FRUIT TREES

Take Little Space to Produce Big Delicious Fruit

DWARF APPLES

These little trees can be planted 8 to 10 feet apart, and are only 10 to 12 feet high at maturity. Most varieties start producing fruit the first or second year after planting, and the fruit is as large or larger than that from standard trees. Plant two or more varieties for pollination.

Varieties: Large Transparent Grimes Golden McIntosh Red Yellow Delicious Red Rome Beauty
Price: 2-yr., 3-4 ft., $3.25 each; 3 for $9.00.

DWARF PEARS

These attractive small trees require very little space, produce big delicious fruit, and often bear the year after planting. Plant two varieties for cross-pollination.

Varieties available: Bartlett Clapp’s Favorite Starking Duchess
Price: 2-yr., 3-4 ft., $3.25 each; 3 for $9.00.

HEDGES Beautiful living fences

THE FAMOUS CALIFORNIA PRIVET—The Best Low Cost Hedge—Grown by Harrison Brothers, Berlin, Maryland

California Privet is the Leading Low Cost Hedge Plant

CALIFORNIA PRIVET (Ligustrum ovalifolium)
This is the universal hedge in the East, a fact proving that Privet has greater merit under ordinary conditions for this purpose than any other plant. For live fences at village, town and country homes it is the very best of all materials. On public grounds of all kinds, parks and cemeteries, along roads and paths, on factory grounds, and on newly subdivided areas near towns, nothing else can be used in its place, and in this place it is indispensable. It is the best of all hardy hedge plants. It can be easily kept at any height desired; has glossy, deep green leaves, and holds them until late fall. Its strong, quick, upright growth makes it useful for screening out unsightly objects.

SPIRAEA VAN HOOTTEI

Always Makes an Attractive Hedge

GREEN BARBERRY (Berberis Thunbergii)
The best low dense hedge plant grown. Its abundant, small, light green leaves, which turn to rich colors in autumn, and its wealth of scarlet berries make it very attractive. Extremely hardy and requires but little pruning. Ornamental and graceful the whole year.

PRICES PER EACH PLANT
9 to 12 inches .50
12 to 15 inches .60
15 to 18 inches .70
18 to 24 inches .90

BUSH ARBUTUS (Arbutus Unedo)

By far the Best Evergreen Shrub
One of our most beautiful, popular and satisfactory broad-leaved evergreens. The graceful, drooping stems and branches are covered with dark, glossy leaves which in winter assume a metallic sheen. From the middle of June until frost, this plant produces an immense quantity of tubular-shaped white flowers tinged with pink, about an inch long, which are borne in clusters. Good for shady locations.

RESIDENT BARBERRY

(Barberton Thunbergii)

A highly important introduction among shrubs, giving us for the first time a practical, easily grown shrub of medium height, with good, distinctly red foliage. This must be pruned to the bare stem or branches. If not done, it will become confused with its parent plant. The plant is to be worked out with the shrub foliage depending on for color. Red berries appear in autumn.

PRICES PER EACH PLANT
9 to 10 inches .50
10 to 12 inches .65
15 to 18 inches .80

HARRISON'S HARDY VINES

NATURE'S DRAPERIES

BOSTON or JAPANESE IVY (Ampelopsis Veitchii)
A popular climber, clinging firmly to brick, stone or other material; deep, glossy green, ivy-shaped foliage which turns to cream and gold color in autumn. Price: $1.25 each.

CHINESE WISTARIA. A rampant growing, climbing vine. Blue flowers in large, drooping clusters during May and June. Price: $1.25 each.

ENGLISH IVY (Hedera Helix)
The most popular evergreen vine; large, deep green, glossy foliage. Excellent for covering walls. Useful for shady locations. Price: $1.00 each.

HALL'S HONEYSUCKLE. Deep green glossy foliage; fragrant flowers from July to fall. Price: $1.00 each.

SWEET AUTUMN CLEMATIS (Clematis paniculata). A splendid climber for covering porches and trellises. Flowers snowy white, produced in immense quantities during late summer and autumn. Price: $1.00 each.

SILVER LACE VINE (Polygonum Auberti). Will rapidly grow 20 feet or more. Forms cloud of lacy, misty white, shot with tints of green and pale rose. Green foliage, tightly bronzed at tips. Price: $1.25 each.
